# Risk Assessment

## 1. Risk Factor

Before you make a decision on any investment, you need to consider how you feel about the prospect of potential loss of principal. This is a basic principle of investing: *the higher return you seek, the more risk you face*. Based on your feelings about risk and potential returns, your goal is to:

- A. Potentially increase my portfolio's value as quickly as possible while accepting higher levels of risk.
- B. Potentially increase my portfolio's value at a moderate pace while accepting moderate to high levels of risk.
- C. Income is of primary concern while capital appreciation is a secondary goal.
