Congratulations! Now that you are at a point in your life that you can afford an expansive list of financial opportunities - upgrading a home, maximizing retirement savings or supporting future generations - the question you need to ask yourself is no longer what's possible, rather, it's what's most important to you.

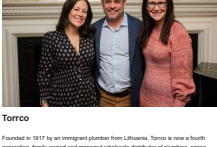

Establishing the "why" behind your wealth can provide a meaningful financial foundation. What does financial success mean to you? Is it about flexibility and independence? Generational legacy? Giving back to your community? Your "financial why" serves as your guidepost, helping you prioritize your goals & dreams.

Speaking of legacy, our Spotlight section this month highlights a fourth-generation small business that we have had the pleasure of working with and knowing for many years: Torco. If you're thinking of upgrading your home by remodeling your kitchen or bathroom, we invite you to visit their website (or one of their numerous showrooms) to learn more about their business.

By allowing us to help you make important financial choices in alignment with your core values, we're here to help you achieve the life you envision for yourself and your family. Thank you for placing your trust & confidence in us.

- Andy & Jason
