Join us for an important client event focused on the growing impact of Alzheimer’s disease and its intersection with financial planning. As the number of Americans aged 65 and older living with Alzheimer’s continues to rise, it’s more crucial than ever to understand how this progressive disease affects decision-making, financial security, and long-term care. This session will explore the risks of financial mismanagement, the importance of early planning, and the key steps financial professionals can take to support clients and their families. Learn how to navigate legal, ethical, and practical considerations while building a strategy that protects your future.
