

OUR PROCESS: THREE STAGES

VIVIAN INVESTMENT PARTNERS

Our approach to the financial freedom planning process consists of three distinct stages.

OUR PROCESS:

Financial Freedom Planning

Individual goals and retirement income requirements change over time, and as professionals, it is our job to enable you to make informed financial decisions using the full complement of resources at our disposal.

This process provides a framework for making decisions collaboratively and monitoring the outcome of those decisions over time.

Each step involves interaction between our team, you the client and outside professionals if needed.

UNDERSTAND

We use a variety of tools including questionnaires and interviews to understand your personal goals, current financial situation, investment experience and risk tolerance. In this step, we make you fully aware of our capabilities and provide educational support to assist our clients in understanding the scope of services we offer to help you plan for a work optional lifestyle and financial independence.

DESIGN

Our team analyzes the information you share with us and designs solutions intended to help you reach financial independence. This step may involve collaboration with other specialists or your existing professionals. We present our recommendations to you, answer your questions, consider alternatives and outline the steps we need to take to implement your plan.

IMPLEMENT

In this step, we execute your customized plan using the extensive tools available to us through Raymond James and/or other professionals that are part of our team. This involves the selection of specific strategies, account types and investment solutions; we then complete the necessary documentation in a coordinated approach utilizing technology wherever possible.

MANAGE

Once implemented, we continually monitor the progress of our recommendations relative to your defined objectives and suggest changes where needed. A key to this step is your involvement in the process and communication of any significant changes in your life. We accomplish this by providing ongoing management of your account and by conducting periodic reviews.

OUR PROCESS:

NEXT STEPS

Securities offered through Raymond James Financial Services, Inc. Member FINRA/SIPC. Investment advisory services offered through Raymond James Financial Services Advisors, Inc. Vivian Investment Partners LLC is not a registered broker/dealer and is independent of Raymond James Financial Services.

Please keep in mind that investing involves risk and you may incur a profit or loss regardless of strategy selected. Past performance does not guarantee future results. Diversification and asset allocation do not ensure a profit or protect against a loss.

In a fee-based account clients pay a quarterly fee, based on the level of assets in the account, for the services of a financial advisor as part of an advisory relationship. In deciding to pay a fee rather than commissions, clients should understand that the fee may be higher than a commission alternative during periods of lower trading. Advisory fees are in addition to the internal expenses charged by mutual funds and other investment company securities. To the extent that clients intend to hold these securities, the internal expenses should be included when evaluating the costs of a fee-based account. Clients should periodically re-evaluate whether the use of an asset based fee continues to be appropriate in servicing their needs. A list of additional considerations, as well as the fee schedule, is available in the firm's Form ADV Part II as well as the client agreement.
