

Whether you're in your early 60s and closing in on retirement, in your mid-20s with decades to go or somewhere in between, you should be aware of an important retirement planning resource from the Social Security Administration (SSA), a benefits statement that outlines your personal retirement and disability benefits — two key components of a comprehensive financial plan.

#### What is it?

About three months before their birthday, the SSA mails Social Security statements to workers age 60 and over who are not receiving Social Security benefits and who are not registered for a "my Social Security" account.

#### On each statement you'll find

- year-by-year histories of your taxed Social Security earnings starting in the year 2001.
   Earlier year earnings have been combined
- estimates of your monthly retirement benefits if you claim between age 62 and 70\*
- estimated monthly disability payments, effective immediately
- estimated monthly benefits to survivors, effective immediately

### FAST FACT

If you have a security freeze, fraud alert, or both on your credit report please ask your credit reporting agency or the Social Security's Identity Service Provider to lift your security freeze or fraud alert before accessing your account.

Source: Social Security Administration.

#### **KEY POINTS**

- You can request a benefits statement online. Simply go to the Social Security Administration's web site (ssa.gov.), sign up for a "my Social Security account."
- To complete the electronic form, you'll need the following information:
  - your name as shown on your Social Security card
  - your Social Security number
  - your date of birth
  - your place of birth
  - your mother's maiden name (to help identify you)

\*Full Retirement Age is 66 for anyone born 1943 to 1954. It increases by two months for every year from 1955 to 1959. FRA is age 67 for anyone born in 1960

This material should be used as helpful hints only. Each person's situation is different.

You should consult your investment professional or other relevant professional before making any decisions.

## Social Security's Benefits Statement Mailing

The statement reminds you that Social Security is meant to be the foundation — and not the sole source — of your retirement income. After reviewing your statement, you may realize that you might need to further supplement your benefits with potential income from a 401(k) or other retirement plan, savings or investments.

#### An action plan

To make the most of the personal retirement and disability benefits information sent to you by the SSA, you may want to consider following these four simple steps:

- 1) Take a few moments to review the diagrams on the following pages to see what the statement can tell you.
- 2) Familiarize yourself with the estimated benefits available to you and your family as outlined on the statement.
- 3) Schedule an appointment with your investment professional to review your Social Security statement and incorporate any pertinent information into your overall financial plan.
- 4) If appropriate, this might also be a good opportunity to discuss making changes to your retirement portfolio with your financial advisor or investment professional.

## Creating or accessing your personal my Social Security account

- If you have accessed my Social Security with a Social Security username and password that you created before September 18, 2021: You should still sign in using your Social Security username and password. This is the first option on the Sign In screen.
- If this is your first time trying to access my Social Security: You can now create your new my Social Security account through either of these two credential partners: Login.gov or ID.me.
  - Login.gov is your one government account for simple, secure, and private access to participating U.S. government agencies.
  - ID.me is a single sign-on provider that meets the U.S. government's online identity proofing and authentication requirements.

A credential includes your username, password, and two-step verification factors. A trusted credential partner helps the SSA securely verify your identity online.

## Social Security's Benefits Statement Mailing

Page 1

Credits are used to determine if you have the minimum amount of work needed to qualify for benefits.

Working longer can increase your Social Security benefit. The extra years of work usually help increase your average earnings on which your benefits are based. After your Full Retirement Age (FRA), your retirement benefit increases by 8% per year until age 70.

Submit Form SS-5 if your name has changed or your date of birth is incorrect.

# Your Social Security Statement

WANDA WORKER

June 1, 2022

The FRA is 66 for anyone born between 1945 and 1954. It gradually increases by two months for every year between 1955 and 1959. It is age 67 for anyone born in 1960 or later.

Social Security retirement benefits are available at age 62. However, they can increase if you take at FRA, and they max out at age 70. Discuss with your investment professional how your Social Security claiming age may impact your retirement goals, needs and income.

#### **Retirement Benefits**

You have earned enough credits to qualify for retirement benefits. To qualify for benefits, you earn "credits" through your work — up to four each year.

Your full retirement age is 67, based on your date of birth:
April 5, 1962. As shown in the chart, you can start your
benefits at any time between ages 62 and 70. For each
month you wait to start your benefits, your monthly
benefit will be higher—for the rest of your life.

These personalized estimates are based on your earnings to date and assume you continue to earn \$54,489 per year until you start your benefits. Learn more at <a href="mailto:ssa.gov/benefits/retirement/learn.html">ssa.gov/benefits/retirement/learn.html</a>.

#### **Disability Benefits**

You have earned enough credits to qualify for disability benefits. If you became disabled right now, your monthly payment would be about \$2,083 a month. Learn more at <u>ssa.gov/disability</u>.

#### **Survivors Benefits**

You have earned enough credits for your eligible family members to receive survivors benefits. If you die this year, members of your family who may qualify for monthly benefits include:

Minor child: \$1,562

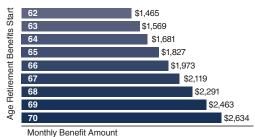

Spouse, if caring for a disabled child or

child younger than age 16: \$1,562 Spouse, if benefits start at full retirement age: \$2,083

Your spouse or minor child may be eligible for an additional one-time death benefit of \$255. Learn more at <u>ssa.gov/survivors</u>.

Total family benefits cannot be more than:

## Personalized Monthly Retirement Benefit Estimates (Depending on the Age You Start)

#### Medicare

You have enough credits to qualify for Medicare at age 65. Medicare is the federal health insurance program for people:

- age 65 and older,
- under 65 with certain disabilities, and
- of any age with End-Stage Renal Disease (ESRD) (permanent kidney failure requiring dialysis or a kidney transplant).

Even if you do not retire at age 65, you may need to sign up for Medicare within 3 months of your 65th birthday to avoid a lifetime late enrollment penalty. Special rules may apply if you are covered by certain group health plans through work.

For more information about Medicare, visit medicare.gov or ssa.gov/medicare or call 1-800-MEDICARE (1-800-633-4227) (TTY 1-877-486-2048).

We base benefit estimates on current law, which Congress has revised before and may revise again to address needed changes. Learn more about Social Security's future at <a href="mailto:ssa.gov/ThereForMe">ssa.gov/ThereForMe</a>.

## Social Security's Benefits Statement Mailing

#### Page 2

If there is a divorced spouse who also qualifies for benefits off you, he or she will not affect the total amount of benefits you or your current spouse may receive.

You are eligible for both your own retirement benefit and a spousal benefit, the Social Security Administration will pay you an amount that equals the higher of the two benefits.

Be sure to confirm that all of your earnings from past years and employers are recorded. If they aren't, locate your W-2 or tax return and contact Social Security. Note: Your earnings for the current year won't be reported until next year. You may have only three years to make any corrections to your earnings statement.

#### **Earnings Record**

Review your earnings history below to ensure it is accurate because we base your future benefits on our record of your earnings. There's a limit to the amount of earnings you pay Social Security taxes on each year. Earnings above the limit do not appear on your earnings record. We have combined your earlier years of earnings below, but you can view your complete earnings record online with my Social Security. If you find an error view your full earnings record online and call 1-800,772-1213.

Work Year	Earnings Taxed for Social Security	Earnings Taxed for Medicare (began 1966)
1971-1980	\$ 2,142	\$ 2,142
1981-1990	87,102	87, 02
1991-2000	246,069	246,069
2001	34,147	34,147
2002	34,846	34,846
2003	36,021	36,021
2004	38,032	38,032
2005	39,711	39,711
2006	41,829	41,829
2007	43,971	43,971
2008	45,170	45,170
2009	44,603	44,603
2010	45,666	45,847
2011	47,093	47,093
2012	48,560	48,560
2013	49,095	49,095
2014	50,605	50,605
2015	51,996	51,996
2016	52,108	52,108
2017	53,251	53,251
2018	53,966	53,966
2019	54,559	54,559
2020	54,489	54,489
2021	Not yet recorded	

If you work for someone else, the taxes deducted by your employer for Social Security and Medicare may be labeled "FICA" on your pay slip.

There's a limit on the amount of earnings on which you pay Social Security taxes each year. Today, all of your earnings are taxed for Medicare.

#### **Taxes Paid**

Total estimated Social Security and Medicare taxes paid over your working career based on your Earnings Record:

Social Security taxes You paid: \$75,568 Employer(s): \$77,498 Medicare taxes You paid: \$18,158 Employer(s): \$18,158

#### Earnings Not Covered by Social Security

You may also have earnings from work not covered by Social Security, where you did not pay Social Security taxes. This work may have been for federal, state, or local govelnment or in a foreign country. If you participate in a retirement plan or receive a pension based on work for which you did not pay Social Security tax, it could lower your benefits. To find out more, visit <u>ssa.gov/qpo-wep</u>.

## Important Things to Know about Your Social Security Benefits

- Social Security benefits are not intended to be your only source of retirement income. You may need other savings, investments, pensions, or retirement accounts to make sure you have enough money when you retire.
- You need at least 10 years of work (40 credits) to qualify for retirement benefits. Your benefit amount is based on your highest 35 years of earnings. If you have fewer than 35 years of earnings, years without work count as 0 and may reduce your benefit amount.
- To keep up with inflation, benefits are adjusted through "cost of living adjustments."
- If you get retirement or disability benefits, your spouse and children may qualify for benefits.
- When you apply for either retirement or spousal benefits, you may be required to apply for both benefits at the same time.
- If you and your spouse both work, use the my Social Security Retirement Calculator to estimate spousal benefits.
- The age you claim benefits will affect the benefit amount for your surviving spouse. For example, claiming benefits after your full retirement age may increase the Spouse, if benefits start at full retirement age amount or page 1; claiming early may reduce it.
- If you are divorced and were married for 10 years, you may be able to claim benefits on your ex-spouse's record. If your ex-spouse receives benefits on your record, that does not affect your or your current spouse's benefit amounts.
- Learn more about benefits for you and your family at ssa.gov/benefits/retirement/ planner/applying7.html.
- When you are ready to apply, visit <u>ssa.gov/benefits/retirement/apply.html</u>.
- The Statement is updated annually. It is available online, or by mail upon request.
