POTENTIAL TAX PLANNING STRATEGIES

TIMING OF PLANNING	INCOME TAX MITIGATION	TRANSFER TAX MITIGATION
PRE-LIQUIDITY	<ul style="list-style-type: none">• Donor Advised Fund• Private Family Foundation• Charitable Remainder Trust	<ul style="list-style-type: none">• Recapitalization• Generation Skipping Transfer Trust• Dynasty Trust• Grantor Retained Annuity Trust• Sale to Defective Grantor Trust• Domestic Asset Protection Trust• Beneficiary Defective Inheritor's Trust®• Donor Advised Fund• Private Family Foundation• Charitable Remainder Trust• Charitable Lead Trust
POST-LIQUIDITY	<ul style="list-style-type: none">• Gain Deferral on Sale of QSBS• Gain Exclusion on Sale of QSBS• Gain Deferral on Sale of ESOP• Donor Advised Fund• Private Family Foundation• Charitable Remainder Trust	<ul style="list-style-type: none">• Donor Advised Fund• Private Family Foundation• Charitable Remainder Trust• Charitable Lead Trust

CAPITAL GAINS TAX STRATEGY - QSBS

Date Founder Stock Acquired Exclusion Amount	No QSBS Base	8/10/93 - 2/17/09*	2/18/09 – 9/27/10**	9/28/10 -***
		50% Exclusion	75% Exclusion	100% Exclusion
Market Value	\$10,000,000	\$10,000,000	\$10,000,000	\$10,000,000
Basis	\$0	\$0	\$0	\$0
Gain Exclusion	N/A	\$5,000,000	\$7,500,000	\$10,000,000
Ordinary Tax	\$2,380,000	\$1,590,000	\$795,000	\$0
AMT Tax	\$2,380,000	\$1,688,000	\$942,000	\$0
Net	\$7,620,000	\$8,312,000	\$9,058,000	\$10,000,000
Effective Tax Rate	23.8%	16.88%	9.42%	0.00%
Tax Savings	N/A	\$692,000	\$1,438,000	\$2,380,000

Note: In all the above scenarios, the current market value of the stock is \$10,000,000 with a cost basis of \$0. It was acquired on December 1 in years 2008, 2009, and 2010, respectively. In order to meet the five-year holding period requirement, the stock could not be sold before December 1, 2013, 2014, and 2015, respectively. No QSBS exclusion has previously been used. Analysis assumes no other income sources, so the taxpayer's tax liability is the greater of the ordinary tax and the alternative minimum tax (AMT).

In the No QSBS base case scenario, the taxpayer pays the federal long-term capital gains tax rate of 23.8% on the realized gains.

*In the 50% exclusion scenario, the taxpayer pays the federal QSBS capital gains tax rate (including Medicare surtax) of 31.8% on the gain above \$5,000,000 plus 28% on 7% of the excluded portion of the gain as an AMT preference item for an effective tax rate of 16.88%. Ordinary taxes do not include the preference item.

**In the 75% exclusion scenario, the taxpayer pays the federal QSBS capital gains tax rate (including Medicare surtax) of 31.8% on the gain above \$7,500,000 plus 28% on 7% of the excluded portion of the gain as an AMT preference item for an effective tax rate of 9.42%. Ordinary taxes do not include the preference item.

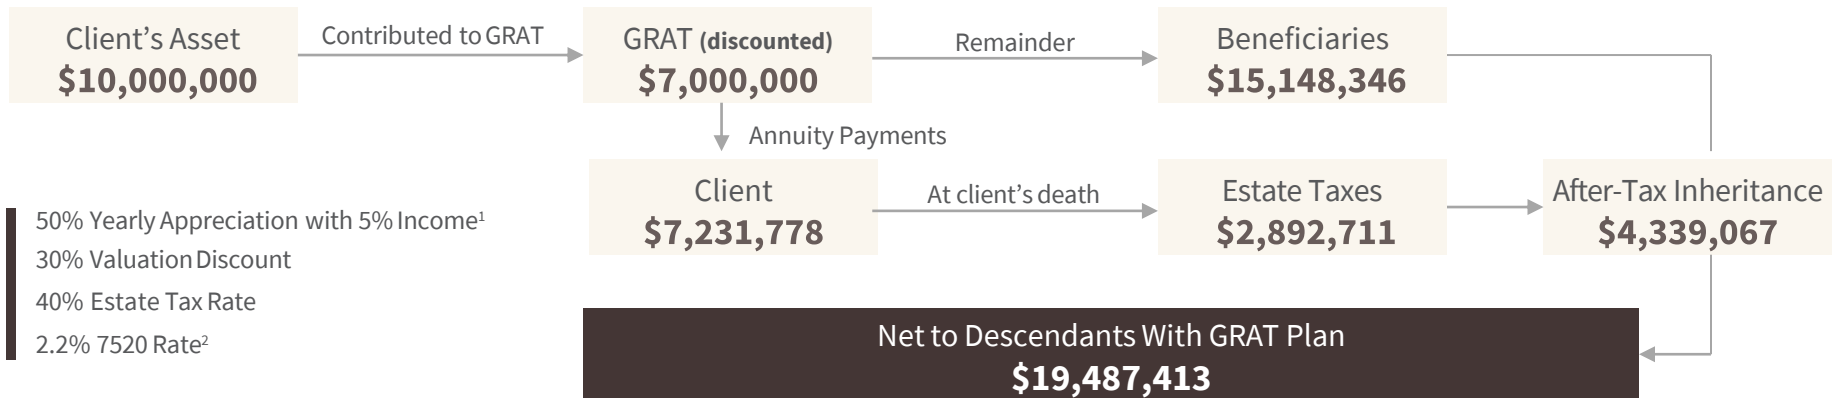

***In the 100% exclusion scenario, the effective tax rate is 0%.

ESTATE TAX STRATEGY - GRAT

SCENARIO 1: NO TAX PLAN

SCENARIO 2: WITH 2-YEAR GRAT

- 50% Yearly Appreciation with 5% Income¹
- 30% Valuation Discount
- 40% Estate Tax Rate
- 2.2% 7520 Rate²

¹ There is no guarantee that the investment return on the trust assets will exceed the IRS discount rate.

² Section 7520 interest rates are used to value certain charitable interests in trusts. While the interest rate used in this example was for illustrative purposes only, 7520 rates are calculated monthly and are equal to 120% of the applicable federal mid-term rate (compounded annually) for the month in which the valuation date falls rounded to the nearest two-tenths of one percent. ³ If the grantor dies during the GRAT term, all remaining GRAT assets (including appreciation) return to the grantor's taxable estate. If the grantor survives the GRAT term, then only the value of the annuity payments remains part of the grantor's taxable estate. This information was developed by Raymond James. It is general in nature and is intended solely to illustrate conceptually how a particular estate planning technique might work, based on various assumptions. Whether the planning technique is appropriate for you will depend on your goals and your specific situation. This is not a complete statement of all information necessary for making an investment decision nor a recommendation or a solicitation to buy or sell any security. Investments and strategies mentioned may not be suitable for all investors. Past performance may not be indicative of future results. Raymond James does not advise on tax, legal, or mortgage issues. These matters should be discussed with an appropriate professional.

Investment products are not deposits, not FDIC/NCUA insured, not insured by any government agency, not bank guaranteed, subject to risk, and may lose value.

CAPITAL ALLOCATION

We have found there are three major buckets clients need to fill. Capital allocation and investment strategy may vary significantly for each of your goals inside the bucket.

Living	Legacy	Charitable
<ul style="list-style-type: none">• Major Purchases• Cash Flow• Tax-Efficient Investing 	<ul style="list-style-type: none">• Creating a family legacy• Generational Gifting and Planning• Trust & Estate Strategies 	<ul style="list-style-type: none">• Family Foundation• Donor Advised Fund• Charitable Remainder Trust 

*“Markets change,
but our values remain
the same.”*

We put clients first

If we do what's right for clients, the firm will do well and we'll all benefit.

We act with integrity

We put others above ourselves, and what's right above what's easy. We believe doing well and doing good aren't mutually exclusive.

We value independence

We respect autonomy, celebrate individuality, and welcome diverse perspectives, while encouraging collaboration and innovation.

We think long term

We act responsibly, taking a conservative approach that translates into a strong and stable firm for clients, advisors, associates, and shareholders.
