

Reopening Our Office

June 29, 2020

After careful consideration, we will begin staffing our office on July 6th. While we are excited to take this step, our primary focus will continue to be the safety and health of our clients and our team members.

Our team will be taking every reasonable precaution to ensure your safety. Face masks will be worn by our team members as you enter the building. We will have a temporary hand wash station, and areas will be sanitized before and after each client, and continued throughout the day. We can provide you with a face mask if needed. We strive to make you feel comfortable and at ease should you decide to come in for a meeting.

Our office will be staffed Monday through Friday, 8:30 until 5pm. However, in-person client meetings will be offered during limited hours. Only one client/couple will be allowed in the office at each time. We also have the ability to offer you a meeting in our outdoor space, weather permitting. We will continue to offer our meetings via Zoom.

We greatly appreciate your patience as we navigate to our new normal. We will try our best to accommodate your needs, and respect your wishes. We are very grateful to have such wonderful clients. We miss you, and we can't wait to get back to doing what we love, seeing our Evans Wealth Strategies family!

Sincerely,

Mary
