

## 2022 YEAR-END NOTES

- Due to market volatility, we're expecting the potential for large capital gains distributions from several mutual funds again this year.
- **December 15:** The end of the year is always busy with year-end gifting, account openings, non-managed account tax harvesting reviews, retirement account funding, etc. Please consider December 15 as a soft deadline for service requests needing to be completed before year-end.
- **December 28:** The last trading day of the year to allow regular-way 2-day settlement to occur in 2022 is Wednesday, December 28. These trades will settle on December 30, 2022 and appear on your December 2022 statement. As usual, you can still trade until December 30 and recognize a gain or loss in 2022 but the settlement won't occur until early January and therefore the transaction will not appear on your December 2022 statement.

## COMMON YEAR-END TAX QUESTIONS

**Question: Can long-term capital losses offset short-term capital gains?**

**Answer:** Yes, but you must follow the netting rules in a specific order:

1. Net short-term gains and short-term losses.
2. Net long-term gains and long-term losses.
3. Net the short-term result against the long-term result where one category is a net gain and the other a net loss.
4. Deduct up to \$3,000<sup>1</sup> of excess losses against ordinary income per year.

**Question: What happens to excess losses?**

**Answer:** If losses exceed gains, up to \$3,000<sup>1</sup> can be used to offset ordinary income in each year that losses continue to exceed gains. Any remaining losses are "banked" and carried forward to be used in future years until death.

<sup>1</sup> \$1,500 if married filing separately.

**Wishing you and yours a safe and happy holiday season!**

## FROM THE DESK OF MARY MAGEE

Anyone over 70.5 is permitted to make Qualified Charitable Distributions (QCDs) of up to \$100,000 annually from their regular IRAs. Issues occur when the charity doesn't receive the check (as it will eventually be cancelled and redeposited into your account) or sits on it for a long time before cashing it. This has become a real problem, regardless of whether we mail the check or you write a check off your IRA. In the event the check is not cashed by year-end and it was intended to count as part of your RMD for the year, then you will be subject to a 50% penalty tax. It is therefore imperative that you write the checks as early in the year as possible (we suggest no later than July 1) and that you follow-up with the charities to cash your checks and provide you the necessary receipt.

Speaking of making sure you complete your RMDs, we actively try to do our best to make sure you take your required RMD well before year-end. However, there's not much we can do with RMDs on accounts held away from Raymond James. Please contact me if you have any outside IRA accounts and we can transfer them in. Not only will we be able to help keep an eye on them, it'll simplify your life.

## THE TWO QUICKEST AND MOST SECURE WAYS TO MAKE DEPOSITS INTO YOUR ACCOUNTS AND MOVE MONEY BETWEEN ACCOUNTS...

**Mobile Deposits:** Once you have registered for access to our secure and customizable Client Access website at <https://clientaccess.rjf.com/> you'll be able to make secure mobile deposits via our phone app and transfer monies between your Raymond James accounts and your local bank accounts.

**ACH Money Transfer:** this is a quick and secure two-way transfer link we set up in advance between your Raymond James account and your local bank account. The link between the two accounts must be set up in advance and remains on file for future use. Please contact Mary if you have not yet linked your Raymond James account with your bank account.
