This Brochure provides information about the qualifications and business practices of Phoenix Wealth Advisors, Inc. If you have any questions about the contents of this Brochure, please contact us at (919) 929-4448 or Michele.Nettesheim@RaymondJames.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Phoenix Wealth Advisors, Inc.'s IARD firm number is 118412.

Phoenix Wealth Advisors, Inc. is a registered investment adviser. Our registration as an investment adviser does not imply any level of skill or training. Additional information about Phoenix Wealth Advisors, Inc. also is available on the SEC's website at www.adviserinfo.sec.gov.

Item 2 Material Changes

This section describes the material changes to Phoenix Wealth Advisors, Inc. (“Phoenix”)’s Firm Brochure since its last annual amendment on January 25, 2021 and has been prepared according to the U.S. Securities and Exchange Commission’s (“SEC”) disclosure requirements. There are no material changes; however, as of June 30, 2021, William W. Farley, Jr. has retired and is no longer part of Phoenix Wealth Advisors, Inc. Additionally, in September 2021 Julie Crowe left Phoenix and Emma Jackson started.

Item 4 Advisory Business

Phoenix Wealth Advisors, Inc. (“Phoenix” or “Adviser”), owned by Georgios Livanos and Mark Rhoades, has been an investment adviser registered with the Securities and Exchange Commission since 2001. Phoenix focuses on providing sophisticated financial planning and wealth management services to the exceptional people who make up this community. From business executives and entrepreneurs to scientists and educators, we work with a broad range of clients and meet a wide variety of needs. Drawing on more than a century of financial education and industry experience, our team will work with you to define your financial goals, establish the degree of risk you are comfortable with and tailor a wealth strategy designed to achieve lasting well-being.

Advice is tailored to the individual client’s needs through interviews with clients, the collection of important information, and detailed financial planning, as applicable. Clients may be able to impose reasonable restrictions on their accounts. Reasonable restrictions may include the designation of particular securities or types of securities that should not be purchased in their account (i.e., Company XYZ or companies involved in a particular industry, etc.), or should be sold if held in their account. However, in some cases where investment discretion has been delegated to a third-party manager, that manager may determine that the implementation of such a restriction may be impractical. In the event that happens, the client will be notified promptly.

As of December 31, 2020, Phoenix had the following in assets under management:

Discretionary	Accounts: 1270	Assets: \$463,000,000
Non-Discretionary	Accounts: 12	Assets: \$ 10,000,000
Under Advisement ¹	Accounts: 8	Assets: \$ 2,000,000
Total	Accounts: 1,151	Assets: \$475,000,000

Financial Planning Services

Phoenix offers a range of financial planning advisory services to its clients. Such services may include a review of all aspects of an individual’s current financial situation, with emphasis on:

- Income tax planning,
- Estate tax planning,
- Insurance planning,
- Investment planning,
- Retirement planning, and
- Capital needs planning.

To the extent other services are needed, the Adviser will assist the individual in those areas in which it is competent to give advice.

The process generally begins with an introductory meeting with the Investment Advisory Representative (“IAR”) to discuss the scope of the plan and principal financial objectives of the client. At the client’s request and after a contract has been completed, the IAR would then receive from the client all necessary financial information.

Additional information may be requested before the presentation of the plan. During these initial meetings, the IAR will ask the client about his/her risk background and past investment experience.

The written financial plan will present the client’s financial strengths and weaknesses. General areas reviewed may include tax and cash flow planning, retirement planning, debt reduction strategies, educational funding requirements, estate analysis, and alternative investment patterns for either increased return or risk adjustment dependent on the client’s age, assets, and current earned income. Phoenix uses Goal Planning and Monitoring software to create its

¹ Assets under advisement represent assets in which we provide consulting services and for which we have neither discretionary authority nor responsibility for arranging or effecting the purchase or sale of recommendations provided to and accepted by the ultimate client. Inclusion of these assets will make our total assets number different from assets under management disclosed in Item 5.F of our Form ADV Part 1A due to specific calculation instructions for Regulatory Assets Under Management.

financial plans. In addition, the IAR may be asked to furnish analysis for closely held small business owners. The plan should enable the client to determine financial goals and objectives, both long- and short-term.

As a follow-up service, Phoenix will, at the client's request, assist the client in implementing the recommendations, including referral to other practicing professionals (such as attorneys and accountants) whose services may be required.

The client may utilize Phoenix for a single consultation or on a continuous basis at periodic intervals. The client is under no obligation to implement the plan through Phoenix. Either the client or Phoenix may terminate the engagement at any time with written notice. The plan is the basic instrument for Phoenix to know the client and serves as a guideline for offering investment supervisory services.

Retirement Plan Services

In addition to providing individual financial planning and investment advisory consulting services to individuals and corporations, we may also provide advice and consultation to retirement plan sponsors and pension plans. Services rendered may include, but are not necessarily limited to, the development of a documented investment process, asset allocation, research and investment recommendations, plan participant education, investment or investment manager performance monitoring, and guidance to the plan sponsors on its fiduciary obligations to plan participants. In providing these services, we may act as a fiduciary as defined under Section 3(21)(A)(ii) of ERISA but will serve in such capacity only with respect to the provision of ERISA-defined investment advice.

Establishing a sound fiduciary governance process is vital to good decision-making and to ensuring that prudent procedural steps are followed in making investment decisions. Phoenix will provide Retirement Plan consulting services to Plans and Plan Fiduciaries as described below. The particular services provided will be detailed in the consulting agreement. The appropriate Plan Fiduciary(ies) designated in the Plan documents (e.g., the Plan sponsor or named fiduciary) will (i) make the decision to retain our firm; (ii) agree to the scope of the services that we will provide; and (iii) make the ultimate decision as to accepting any of the recommendations that we may provide. The Plan Fiduciaries are free to seek independent advice about the appropriateness of any recommended services for the Plan. Retirement Plan consulting services may be offered individually or as part of a comprehensive suite of services.

The Employee Retirement Income Security Act of 1974 ("ERISA") sets forth rules under which Plan Fiduciaries may retain investment advisers for various types of services with respect to Plan assets. For certain services, Phoenix will be considered a fiduciary under ERISA. For example, Phoenix will act as an ERISA § 3(21) fiduciary when providing non-discretionary investment advice to the Plan Fiduciaries by recommending a suite of investments as choices among which Plan Participants may select.

TYPES OF ADVISORY SERVICES

Your IAR works with you to determine the appropriate investment objectives based on the information you provide initially, and periodically thereafter. With this information, you and your IAR may select one of the following programs. If you wish to impose or modify an existing investment restriction, you may do so at any time by discussing this with your IAR.

Phoenix and its IARs offer various types of advisory services. These advisory services include asset management, investment advice, and individual investment advisory consulting services, retirement plan consulting services and financial planning. Your IAR may act as an investment manager within certain investment programs or may recommend other affiliated or non-affiliated asset managers. For more information regarding methods of analysis, investment strategies, and risk of loss, please reference *Item 8 Methods of Analysis, Investment Strategies and Risk of Loss* later in this brochure.

We provide investment advisory services through the following programs:

Accounts Managed by Your IAR

Ambassador

The Ambassador program is a wrap fee investment advisory account offered by Phoenix and administered by Raymond James & Associates, Inc. (“RJA”), a member of the NYSE/SIPC, in which you are provided with ongoing investment advice and monitoring of securities holdings. Your IAR will manage your account on a discretionary or non-discretionary basis according to your objective. Ambassador offers you the ability to pay an asset-based advisory fee which includes transaction costs within the advisory fee in lieu of a commission for each investment transaction within the account. Phoenix receives a portion of the fee.

Dividend Strategy

Within the Ambassador Program, we offer an equity income Dividend Strategy Portfolio that integrates the strategy of a third-party money manager with our own input with regard to individual security concentration levels or additional holdings. In this strategy, we will identify a third-party manager whose strategy we believe in, and we will mirror most of their trades. However, we will use our own research to enhance the strategy’s trades and holdings when we feel it is advantageous to the overall goal of the strategy. Changes to the third-party manager’s strategy can include concentration levels, different securities in the same industry, or an eliminate of securities in a particular industry, as we deem in the best interest of our clients, but in line with the overall strategy.

Multi-Cap Growth Strategy

We also offer a Multi-Cap Growth Strategy that integrates the holdings from an exchange-traded fund (ETF) with a similar strategy with our own input with regard to individual security holdings and mutual funds we believe will enhance the strategy. In this strategy we use approximately 30% of the securities from the ETF that is in-line with our own research and combine them with mutual funds of our choosing to create a portfolio for this strategy. Similar to our Dividend Strategy, while we will use the holdings of a publicly traded ETF as our core holdings, we will manage concentrate levels and use other mutual funds or individual securities as we deem appropriate.

Accounts Managed by Other Asset Managers:

Phoenix offers to our clients a managed wrap program called the Freedom Account (described below), under a subadvisory agreement with RJA. Our IARs work with our clients to choose an appropriate program and help the clients select the managers, strategies, or disciplines within the programs, as applicable. Once the program (described in more detail below) is selected by the client, RJA is appointed as a discretionary investment adviser under the appropriate advisory agreement. In this way, RJA acts as a subadviser, directly managing the clients’ assets through the selected program. Both RJA (and its affiliates and agents, and other subadvisers, as applicable) and Phoenix IARs receive a portion of the advisory fee paid by the client.

Freedom

The Freedom Account is an investment advisory account which allocates your assets, through discretionary mutual fund or ETF management, based upon your financial objectives and risk tolerances. You appoint RJA as your investment adviser to select the representative funds and monitor their performance on a continuing basis. Your IAR receives a portion of the fee for services provided under the agreement.

Other Advisory Services

The IAR offers a full range of advisory services not directly related to investments. These services include individual financial planning (discussed above), pension plan design and consultation, pension plan participant advisory services, small business financial planning, and seminars for investors.

Phoenix’s written financial plan could include advice on family educational needs, insurance needs, and/or retirement planning. This information would outline the scope of the issue as well as financial techniques that could be implemented to fund the need.

Phoenix offers pension planning and plan implementation services to small and medium-sized businesses. Service will address the need of a company to install a comprehensive retirement plan, provide an overview of the various plan design characteristics, and implement the selection of an attorney to draft the pension trust document and the

selection of a third-party administrator. As mentioned above, Phoenix may provide 3(21) fiduciary services for retirement plans for which is it compensated by the Plan Sponsor.

Item 5 Fees and Compensation

We may base our fees on a percentage of assets under management, hourly charges, or fixed fees (not including subscription fees). You may negotiate asset-based fee and/or commission rates with us, and the decision to accept a negotiated fee is at the discretion of your IAR. Factors involved in this negotiation may include the nature and size of the overall relationship with your IAR, the level and type of advisory or other financial services being or expected to be provided, and Phoenix's or RJA's policy with respect to discounts. You should understand that unless a lower rate has been negotiated, Phoenix or RJA will charge fees based upon the applicable standard fee schedule detailed below for each advisory account program. While the asset-based fees are negotiable, the fee schedule's asset-level breakpoints and each applicable fee rate may not be modified in any way.

Financial Planning Fees:

Fees charged for the full financial planning service are dependent upon the time required and complexity of the plan. The fees are payable as follows: hourly rates for plan development or consultation are \$350 per hour, fixed fees for plans will run between \$1,150 and \$4,200 depending on the complexity and comprehensiveness of the plan. Compensation is payable when services are rendered.

Specific services and amount of fees are described in the Investment Advisory Agreement.

All fees are negotiable. A client may be asked for a deposit of \$400 fee as a retainer at the time a financial planning contract is signed.

Asset Management Fees:

Ambassador. The client is assessed an all-inclusive wrap fee, set forth as follows:

Account Value	Annual Fee
First \$1,000,000	2.25%
Next \$1,000,000	2.00%
Next \$3,000,000	1.75%
Next \$5,000,000	1.50%
> \$10,000,000	1.25%

The annual asset-based fee is paid quarterly in advance. When an account is opened, the asset-based fee is billed for the remainder of the current billing period and is based on the initial contribution. Thereafter, the quarterly asset-based fee is paid in advance, is based on the account asset value on the last business day of the previous calendar quarter and becomes due the following business day. If cash or securities, or a combination thereof, amounting to at least \$100,000 are deposited to or withdrawn from your account on an individual business day in the first two months of the quarter, RJA will: (i) assess asset-based fees based on the value of the assets on the date of deposit for the pro rata number of days remaining in the quarter, or (ii) refund prepaid asset-based fees based on the value of the assets on the date of withdrawal for the pro rata number of days remaining in the quarter. No additional asset-based fees or adjustments to previously assessed asset-based fees will be made in connection with deposits or withdrawals that occur during the last month of the quarter unless requested by you. You authorize and direct RJA as Custodian to deduct asset-based fees from your account. You further authorize and direct the Custodian to send a quarterly statement to you which shows all amounts disbursed from your account, including fees paid to Phoenix. You understand that you will be provided a brokerage statement, at least quarterly, showing all amounts disbursed from your account, including the amount of the asset-based fee, the Account Value of the assets on which the fee was based, and the manner in which the fee was calculated.

The asset-based fees associated with this account include all execution and clearing charges except: (1) certain dealer-markups and odd lot differentials, transfer taxes, exchange fees mandated by the Securities and Exchange Act of 1934 and any other charges imposed by law with regard to any transactions in the account; and (2) offering concessions and related fees for purchases of public offerings of securities as more fully disclosed in the prospectus.

You may also incur charges for other account services provided by RJA not directly related to the execution and clearing of transactions including, but not limited to, IRA custodial fees, safekeeping fees, interest charges on margin loans, and fees for legal or transfers of securities.

Freedom. The advisory fees for Freedom accounts are as follows: (All fees are incremental)

<u>Fee-Based Relationship Value</u>	<u>Annual Rate</u>
Up to \$1 million	2.25%
\$1 million up to \$2 million	2.00%
\$2 million up to \$5 million	1.75%
\$5 million up to \$10 million	1.50%
\$10 million and up	1.25%

There is a minimum investment of \$50,000 for most Freedom Strategies, with the exception of Retirement Income Solution Strategies which are \$100,000 and Foundation Strategies which may be opened with a \$5,000 minimum investment.

GENERAL INFORMATION ON COMPENSATION

In certain circumstances, fees, account minimums and payment terms are negotiable within reason.

Fees are calculated as described above, and not charged on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of the funds of an advisory client.

All fees paid to Phoenix for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds to their shareholders. These fees will generally include a management fee, other fund expenses and a possible distribution fee. Mutual funds purchased by Phoenix for a client account will be executed at NAV. Accordingly, the client should review the prospectus of a mutual fund regarding fees charged by the funds in conjunction with fees charged by Phoenix to fully understand the total amount of fees to be paid by the client, and to thereby evaluate the advisory services being provided.

Phoenix's fees are exclusive of transaction fees, and other related costs and expenses which shall be incurred by the client. Clients may incur certain charges imposed by custodians, brokers, third-party investment and other third parties such as fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and ETFs also charge internal management fees, which are disclosed in a fund's prospectus.

Such charges, fees and commissions are exclusive of and in addition to Phoenix's fee, and Phoenix shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that Phoenix considers in selecting or recommending broker-dealers for *client* transactions and determining the reasonableness of their compensation (*e.g.*, commissions).

Some IARs of the Adviser are registered representatives of Raymond James Financial Services, Inc. ("RJFS"), a member of the NYSE/SIPC, and licensed insurance agents who receive other forms of compensation (*e.g.*, commissions) for securities products they offer and sell through RJFS. These products are not offered through the Adviser, and you are not charged investment advisory fees on such products sold through RJFS. However, these activities create real or potential conflicts for the IAR, as they are incentivized to recommend such products. The Adviser has policies and procedures in place to recognize and appropriately monitor such conflicts that arise between the IAR's multiple capacities. These activities are discussed in *Item 10 - Other Financial Industry Activities and Affiliations*.

Item 6 *Performance-Based Fees and Side-By-Side Management*

Phoenix does not charge performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client) or utilize side-by-side management. The only fees charged to Client are noted in *Item 5 Fees and Compensation*, as applicable.

Item 7 Types of *Clients*

Presently, Phoenix focuses on providing services mainly to the following types of Clients:

- Individuals including high net worth individuals
- Retirement plans
- Trusts
- Estates
- Corporations

The Adviser may require a minimum aggregate account balance of \$100,000.00 for account relationships at its sole discretion.

In addition, there is a minimum investment of \$50,000 for most Freedom Strategies, with the exception of Retirement Income Solution Strategies which are \$100,000 and Foundation Strategies which may be opened with a \$5,000 minimum investment.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Phoenix uses the following methods of analysis in its client accounts:

- Fundamental
- Charting
- Technical
- Cyclical

Fundamental analysis and charting deal with the examination of all the material factors of the security, the company, industry in which the company operates, and the economy while technical analysis and cycles deal with the examination of the supply and demand of the securities as evidenced by market activity.

The potential risks of using Fundamental/Charting are that the IAR is utilizing historical information, which may not predict the future outcome of a security. The potential risks of using Technical/Cyclical are the quality of the information being utilized to support the analysis and no expectation of a change to a cycle.

The Adviser receives research from a variety of sources, including RJA and sources available for public viewing such as:

- Financial newspapers and magazines,
- Research materials prepared by others,
- Corporate rating services,
- Annual reports, prospectuses, filings with the Securities Exchange Commission, and
- Company press releases.

Investment Strategies

The Adviser typically employs the following types of investment strategies:

- Long term purchases (held for more than a year)
- Short term purchases (held for less than a year)
- Margin transactions
- Option writing

Clients investing in securities should be aware of the risks involved. Each investment strategy may entail unique risks including the possibility of incurring a loss. In a long-term investment strategy, returns may be adversely affected by market downturns or inflation. A short-term investment strategy is susceptible to current market volatility. Fees for advice and execution on these securities are based on the total asset value of the account. While a negative amount may show on your statement for a margined security as the result of a lower net market value, the amount of the fee is based on the absolute market value. This could create a conflict of interest where your IAR benefits from the use of margin creating a higher absolute market value and therefore receives a higher fee. The use of margin also results in interest charges in addition to all other fees and expenses associated with the security involved. Margin transactions could be subject to maintenance margin requirements, and margin loans must be repaid regardless of the underlying value of the securities purchased. Options writing has several kinds of risks. An options holder may risk the entire amount paid for the option. An options writer may be assigned the option at any time during which the option is exercisable. Losses in options contracts may be significant.

Phoenix typically recommends the following types of investments:

- Equity securities (exchange listed, over-the-counter, ETFs and foreign issuers)
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposits
- Municipal securities

- Investment company securities (variable life insurance, variable annuities, and mutual fund shares)
- U.S. government securities
- Options contracts on securities

Item 9 Disciplinary Information

Phoenix and its IARs do not have any disciplinary history.

Item 10 Other Financial Industry Activities and Affiliations

The Adviser has nine (9) IARs: Georgios Livanos, Mark Rhoades, Peter Wears, Michele Nettesheim, Michael Jackson, Kelly Ward, Allison Fry, and Emma Jackson. Certain IARs of Phoenix are Registered Representatives of RJFS and licensed agents of various insurance companies as described below:

Securities Brokerage (Georgios Livanos, Mark Rhoades, Peter Wears, Michele Nettesheim, Michael Jackson, Kelly Ward, and Allison Fry)

Registered Representatives, through their affiliation with RJFS, receives commissions generated through the buying and selling of securities. In addition, the IAR receives fees through RJFS if the client enrolls in the Ambassador program (please read specific contract information). The IAR may recommend a third-party asset manager who has a direct affiliation with RJFS or a contractual relationship with RJA. RJFS will pay the broker, who is the IAR, fees or commissions as stated in the contract the client signs with that third-party manager. The IAR may also receive 12(b)-1 fees on certain mutual funds. The additional compensation associated with 12b-1 fees presents a conflict between the interests of clients on the one hand and those of Phoenix and/or your IAR on the other. This additional compensation provides an incentive to Phoenix or your IAR, in exercising discretion or making recommendations for your account, to choose or recommend investments that result in higher compensation to our Firm or your IAR. In these circumstances, it is our duty to determine that an investment made in your account or recommended to you that results in such additional compensation is in your best interest based up on the information you have provided to us. Phoenix has implemented a Compliance Program to monitor its compensation arrangements and IARs to help ensure that client assets are invested in, what we believe, are the best available mutual funds for the strategies we are implementing and monitoring. As always, please see a fund's prospectus for more information about fees.

Commission charges may vary depending upon any number of factors, including type of security, purchase or sale, secondary market price, volume of trading, market float, and traded or listed exchange. The Adviser believes that commissions charged by RJFS are competitive with other full-service broker-dealers and that they are fair and reasonable. Commissions charged by RJFS, while generally competitive, are not necessarily the lowest in the industry. Brokerage transactions are placed only through RJFS. There is an inherent potential conflict of interest in this arrangement in that Phoenix through its IARs or related persons who are Registered Representatives of RJFS share in a percentage of the brokerage commissions.

Insurance Broker/Agent (Georgios Livanos, Mark Rhoades, Kelly Ward, Allison Fry and Peter Wears)

Phoenix and its IARs or related persons may have insurance company affiliations from which they receive commissions. Clients are under no obligation to execute recommendations relating to insurance and/or annuity products through the Adviser.

Mr. Livanos, Mr. Rhoades, Ms. Ward, Ms. Fry and Mr. Wears spend approximately 5% of their time on the above activities.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

From time to time, Phoenix may donate to charitable organizations that are affiliated with clients, are supported by clients, and/or are supported by an individual employed by one of our clients. In general, such donations are made in response to requests from clients, or their personnel. Because Phoenix's contributions may result in the recommendation of Phoenix's or its affiliates' products, such contributions may raise a potential conflict of interest. As a result, Phoenix maintains procedures that generally limit the dollar amount and frequency of charitable contributions and requires that all contributions are made directly to the charitable organization (normally a 501(c)(3) organization). No contribution will be made if the contribution implies that continued or future business with Phoenix depends on making such contribution.

From time to time, employees of Phoenix may own securities or mutual funds that are also recommended to clients. Because of this commonality of interest, Phoenix has adopted a Code of Ethics for all supervised persons of the firm describing its high standard of business conduct, and fiduciary duty to its clients. The Code of Ethics includes provisions relating to the confidentiality of client information, a prohibition on insider trading, and personal securities trading procedures, among other things. All supervised persons at Phoenix must acknowledge the terms of the Code of Ethics annually, or as amended.

The Code of Ethics is designed to assure that the personal securities transactions, activities and interests of the employees of Phoenix will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts. Employee trading is continually monitored under the Code of Ethics, and to reasonably prevent conflicts of interest between Phoenix and its clients.

Phoenix's clients or prospective clients may request a copy of the firm's Code of Ethics by contacting Michele Nettesheim at (919) 929-4448.

Phoenix does not, nor does a related person recommend to you, or buy or sell for your accounts, securities in which we (or a related person) have a material financial interest.

Item 12 Brokerage Practices

The Adviser currently uses RJA as its custodian. Additionally, IARs are registered representatives of RJFS and will recommend RJFS to advisory clients for plan implementation and brokerage services. These individuals are subject to FINRA Conduct Rule 3280 that restricts them from conducting securities transactions away from RJFS. Therefore, clients are advised that such IARs are limited to conducting securities transactions through RJFS. It may be the case that RJFS charges a higher fee than another broker charges for a particular type of service, such as transaction fees. Clients may utilize the broker dealer of their choice and have no obligation to purchase or sell securities through RJFS. However, if the client does not use RJFS, the IAR will reserve the right not to accept the account.

The custodian may have their own fee and cost schedules they are entitled to as a custodian of the account. These fees and costs are completely independent of the Adviser, and the Adviser does not receive any portion of these collected costs. Please see *Item 5 Fees and Compensation* for these costs.

RJA, as the custodian, and Phoenix as the adviser, is obligated to seek best execution for all trades; however, better executions may be available via another broker/dealer based on a number of factors including volume, order flow, and market making activity. By executing transactions with the above custodian, we cannot guarantee that a client will receive the most favorable execution of their trades, which in turn may cost clients more money.

Phoenix continuously reviews the accuracy, timeliness and execution of trades processed through RJFS. The Adviser selected RJA for client account custody and trade processing due to accessibility, electronic trading, efficient and professional service, technical support, and timely reporting to clients. In addition, client funds are fully covered through the excess SIPC coverage maintained by RJFS. RJFS prohibits the Adviser from utilizing any other broker-dealer for client custody or securities trading.

Certain affiliated accounts may trade in the same securities with client accounts on an aggregated basis when consistent with Phoenix's obligation of best execution. In such circumstances, the affiliated and client accounts will share commission costs equally and receive securities at a total average price. The Adviser will retain records of the trade order (specifying each participating account) and its allocation, which will be completed prior to the entry of the aggregated order. Completed orders will be allocated as specified in the initial trade order. Partially filled orders will be allocated on a pro rata basis. Any exceptions will be explained on the order.

The Adviser's IARs and related persons may receive research information through its broker-dealer affiliation on securities, market, and economic conditions. RJA does not impose surcharges on clients for research. However, RJA does seek to do investment banking and other business with some companies covered by its research. RJA complies with all securities laws and regulations to manage these potential conflicts of interest. Additionally, RJA does not require that IARs or related persons recommend any securities to clients.

It is Phoenix's policy that the firm will not affect any principal or agency cross securities transactions for client accounts. Phoenix will also not cross trades between client accounts. Principal transactions are generally defined as transactions where an adviser, acting as principal for its own account or the account of an affiliated broker-dealer, buys from or sells any security to any advisory client. A principal transaction may also be deemed to have occurred if a security is crossed between an affiliated hedge fund and another client account. An agency cross transaction is defined as a transaction where a person acts as an investment adviser in relation to a transaction in which the investment adviser, or any person controlled by or under common control with the investment adviser, acts as broker for both the advisory client and for another person on the other side of the transaction. Agency cross transactions may arise where an adviser is dually registered as a broker-dealer or has an affiliated broker-dealer.

Phoenix has no soft dollar arrangements.

Phoenix does not consider, in selecting or recommending broker-dealers, whether Phoenix or a related person receive client referrals from a broker-dealer or third party.

Phoenix does not have directed brokerage arrangements.

From time-to-time Phoenix may make an error in submitting a trade order on your behalf. Trading errors may include a number of situations, such as:

- The wrong security is bought or sold for a client;
- A security is bought instead of sold;
- A transaction is executed for the wrong account,
- Securities transactions are completed for a client that had a restriction on such security; or
- Securities are allocated to the wrong accounts.

When this occurs, Phoenix may place a correcting trade with the broker-dealer which has custody of your account. If an investment gain results from the corrective action, the gain will remain in your account unless it is legally not permissible for you to retain the gain, or Phoenix confer with you and you decide to forego the gain (e.g., due to tax reasons). If a loss occurs due to our administrative trade error, Phoenix are responsible and will pay for the loss to ensure that you are made whole.

Note: To limit the respective administrative expenses and burden of processing small trade errors, it should be noted some custodians (at their own discretion) may elect not to invoice us if the trade error involves a de minimis dollar amount (usually less than \$100). Generally, if related trade errors result in both gains and losses in your account, they may be netted.

Item 13 Review of Accounts

The review process only includes those clients who have entered into an investment advisory contract with Phoenix. Client accounts are reviewed regularly by an investment committee which includes Georgios Livanos, Mark Rhoades, Michael Jackson, Peter Wears and Michele Nettesheim. A monthly review may include balancing an account from the instructions received from the client. Portfolios in the aggregate are reviewed monthly for rates of return on individual issues.

The primary responsibility for client reviews is with Georgios Livanos, Mark Rhoades, and Peter Wears, IARs of Phoenix. Other registered reps are employed who are responsible for handling daily trading and confirmations. In addition, other IARs prepare reports on a weekly or monthly basis that are used in the review process. Phoenix utilizes sophisticated computer systems for assisting in the monitoring process. This system prepares reports allowing Phoenix to analyze statistics about a client's portfolio.

Clients receive a confirmation of each transaction and periodic statements from their broker-dealer. Phoenix will issue additional updates or reports at the client's request.

Item 14 Client Referrals and Other Compensation

From time to time, Phoenix and/or RJA may receive compensation in the form of sponsorship fees for seminars, meetings or conferences from product sponsors such as limited partnerships, mutual funds, insurance companies and annuity sponsors. Such sponsorship fees generally entitle the sponsor to an allotted presentation to IARs of the Adviser.

If clients act upon IAR advice and choose to use one of RJFS' affiliates as a money manager, custodian or to purchase insurance, the Adviser or its IAR may receive compensation in the form of commissions from the affiliate. If a client chooses to use an IAR in his individual capacity as an insurance agent, the individual IAR will receive a commission. Additionally, if a client purchases a mutual fund containing a 12b-1 fee, the Adviser and the IAR may receive such fee. For advisory accounts, mutual fund 12b-1 fees are credited back to the applicable client's account on a quarterly basis, as explained in *Item 5 Fees and Compensation*.

Phoenix has the opportunity to receive traditional "non-cash benefits" from RJFS such as customized statements; receipt of duplicate client confirmations and bundled duplicate statements; access to a trading desk servicing RJFS' advisors exclusively; access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; ability to have investment advisory fees deducted directly from client accounts; access to an electronic communication network for client order entry and account information; access to mutual funds which generally require significantly high minimum initial investments or those that are otherwise only generally available to institutional investors; reporting features; receipt of industry communications; and perhaps discounts on business-related products.

RJFS also provides general access to research and perhaps discounts on research products. Any research received is used for the benefit of all clients. Phoenix has no written or verbal arrangements whereby it receives soft dollars.

In addition, Phoenix is part of a program for security-based lending ("SBL") through RJA. IARs with SBL loans through Raymond James Bank receive an annual 25bps credit on all un-discounted SBL loans. Therefore, Phoenix can receive a portion of the loan interest charged to a client that qualifies for this program, currently 0.25% (or \$.25 for every \$100). When a discount is applied, it reduces Phoenix's portion of the interest received. Phoenix reviews each client's loan to make sure it is consistent with their stated needs and objectives and financial situation.

Each of these arrangements may give rise to conflicts of interest, or perceived conflicts of interest in that Phoenix or an IAR has an incentive to invest client assets in investment products managed or sold by companies that provide benefits to Phoenix, or additional compensation to Phoenix or an IAR, or utilize specific custodians or platforms that provide Phoenix the types of non-cash benefits or research noted above. Phoenix's commitment to its clients and the policies and procedures it has adopted that require the review of such arrangements by the CCO are designed to limit any interference with Phoenix's independent decision making when choosing the best investment products or services for our clients.

Phoenix does not pay for or receive compensation for client referrals.

Item 15 Custody

The Adviser does not have custody of client's assets or funds. However, Phoenix is deemed to have limited custody of some of our clients' funds or securities when the clients authorize us to deduct our management fees directly from the client's account. In addition, Phoenix is also deemed to have custody of clients' funds or securities when clients have standing letters of authorizations ("SLOAs") with their custodian to move money from a client's account to a third-party, and under that SLOA it authorizes us to designate the amount or timing of transfers with the custodian. The SEC has set forth a set of standards intended to protect client assets in such situations, which Phoenix follows.

Clients should receive at least quarterly statements from the broker dealer, bank or other qualified custodian that holds and maintains client investment assets. Phoenix urges you to carefully review such statements and compare such official custodial records to the account statements or documents that we may provide to you. Our statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16 Investment Discretion

Phoenix has discretionary authority for some clients' accounts to trade securities without the clients' prior notification or consent. Phoenix will only have discretion in an account with written permission from the client. If a client wants to grant discretion in his/her account, the client will give discretion in writing via an investment advisory contract.

Phoenix usually receives discretionary authority from the client at the outset of an advisory relationship to select the identity and amount of securities to be bought or sold. In all cases, however, such discretion is to be exercised in a manner consistent with the stated investment objectives for the particular client account.

When selecting securities and determining amounts, Phoenix observes the investment policies, limitations and restrictions of the clients for which it advises.

Investment guidelines and restrictions must be provided to Phoenix in writing.

Item 17 Voting Client Securities

Phoenix does not take any action or render any advice with respect to voting of proxies. Clients should receive their proxy materials from the custodian or transfer agent. However, in the event the Adviser receives such material, it will forward all proxy materials to clients. Furthermore, the Adviser will not advise clients on how to vote their proxies.

From time to time, securities held in the accounts of clients will be the subject of class action lawsuits. The Adviser will not determine if securities held by the client are subject to a pending or resolved class action lawsuit. It will not evaluate a client's eligibility or to submit a claim to participate in the proceeds of a securities class action settlement or verdict. Furthermore, the Adviser will not initiate litigation to recover damages on behalf of clients who may have been injured as a result of actions, misconduct, or negligence by corporate management of issuers whose securities are held by clients.

Item 18 Financial Information

We are not required to provide financial information to our clients because we do not meet any of the following criteria:

- Require the prepayment of more than \$1,200 in fees and six or more months in advance, or
- Take custody of client funds or securities, or
- Currently have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Additionally, Phoenix has not been the subject of a bankruptcy petition at any time during the past ten years.

He also holds the Series 4 (Registered Options Principal), Series 63 (Uniform Securities Agent State Law exam) and Series 65 (Uniform Investment Adviser Law exam) registrations for Investment Adviser Representatives. All of these licensures require the successful passing of examinations.

Professional Designation Held:

Chartered Financial Analyst (CFA)

The Chartered Financial Analyst (CFA) designation is issued by the CFA Institute, formerly known as the Association for Investment Management and Research (AIMR). The CFA Program is a graduate-level program for investment specialists such as securities analysts, money manager, and investment advisers. To become a CFA charterholder, an individual must have at least four years of acceptable professional experience in the investment decision-making process must pass three sequential, six-hour examinations. Each of the 3-course level exams must be passed, and each course level is a self-study program involving approximately 250 hours of study time. There are no continuing education requirements to maintain the CFA designation. CFA charterholders must commit to abide by and annually reaffirm adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

The Chartered Financial Analyst (CFA) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute — the largest global association of investment professionals. There are currently more than 90,000 CFA charterholders working in 134 countries. To earn the CFA charter, candidates must: 1) pass three sequential, six-hour examinations; 2) have at least four years of qualified

professional investment experience; 3) join CFA Institute as members; and 4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA charterholders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA charterholders—often making the charter a prerequisite for employment.

Additionally, regulatory bodies in 22 countries and territories recognize the CFA charter as a proxy for meeting certain licensing requirements, and more than 125 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

To learn more about the CFA charter, visit www.cfainstitute.org.

Peter Wears (CRD no. 717552)

Year of Birth: 1950

Educational Background:

Duke University, BA
Duke University, MBA

Business Background:

Phoenix Wealth Advisors, Inc.	Investment Adviser Representative	2018 - Present
Raymond James Financial Services, Inc.	Registered Representative	2018 - Present
UBS Financial Services	Registered Representative	2009 - 2018

To be a Registered Representative of Raymond James Financial Services, Inc., Ms. Jackson has a General Securities Registered Representative (Series 7) license. She also holds the Series 66 (Uniform Combined State Law exam) registration for Investment Adviser Representatives. All of these licensures require the successful passing of examinations.

Item 3 Disciplinary Information

Neither Mr. Livanos, Mr. Rhoades, Mr. Wears, Ms. Jackson, Ms. Ward, Ms. Nettesheim, Ms. Fry nor Mr. Jackson has any disciplinary history.

Item 4 Other Business Activities

Securities Brokerage

Mr. Livanos, Mr. Rhoades, Mr. Wears, Ms. Jackson, Ms. Ward, Ms. Nettesheim, Ms. Fry and Mr. Jackson are Registered Representatives with Raymond James Financial Services, Inc., and may be paid commissions on securities transactions. All commissions are disclosed to clients. However, Phoenix is solely responsible for all investment advice rendered to clients.

Insurance Broker/Agent

Mr. Livanos, Mr. Rhoades, Ms. Ward, Ms. Fry and Mr. Wears may have insurance company affiliations from which they receive commissions. Clients are under no obligation to execute recommendations relating to insurance and/or annuity products through Phoenix.

For more information regarding other financial industry activities and affiliations of Phoenix or its IARs, please consult the *Firm Brochure*.

Item 5 Additional Compensation

From time to time, Mr. Livanos, Mr. Rhoades, or Mr. Wears may receive compensation in the form of sponsorship fees for seminars, meetings or conferences from product sponsors such as limited partnerships, mutual funds, insurance companies and annuity sponsors. Such sponsorship fees generally entitle the sponsor to an allotted presentation to IARs of Phoenix.

If clients act upon IAR advice and choose to use one of RJFS' affiliates as a money manager, custodian or to purchase insurance, the IAR may receive compensation in the form of commissions from RJFS. If a client chooses to use an IAR in his individual capacity as an insurance agent or broker, the IAR will receive a commission directly. Additionally, if a client purchases a mutual fund, the IAR may receive ongoing commissions for servicing the account as broker.

As part of its fiduciary duties to Clients, Phoenix endeavors at all times to put the interests of its investment advisory clients first. Clients should be aware, however, that the receipt of economic benefits by Phoenix or its related persons in and of itself creates a potential conflict of interest.

Item 6 Supervision

As the owners of Phoenix, Mr. Livanos and Mr. Rhoades are ultimately responsible for any advice rendered to clients. They are also responsible for the supervision of all of Phoenix's IARs and employees, including Mr. Wears, Ms. Jackson, Ms. Ward, Ms. Nettesheim, Ms. Fry and Mr. Jackson. Any questions regarding the supervision of advisory activities can be directed to them at (919) 929-4448.
