#### Reconciliation of non-GAAP financial measures to GAAP financial measures (Unaudited)

We utilize certain non-GAAP financial measures as additional measures to aid in, and enhance, the understanding of our financial results and related measures. These non-GAAP financial measures have been separately identified in this document. We believe certain of these non-GAAP financial measures provides useful information to management and investors by excluding certain material items that may not be indicative of our core operating results. We utilize these non-GAAP financial measures in assessing the financial performance of the business, as they facilitate a comparison of current- and prior-period results. We believe that return on tangible common equity and tangible book value per share are meaningful to investors as they facilitate comparisons of our results to the results of other companies. In the following tables, the tax effect of non-GAAP adjustments reflects the statutory rate associated with each non-GAAP financial measures should be considered in addition to, and not as a substitute for, measures of financial performance prepared in accordance with GAAP. In addition, our non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures of other companies. The following tables provide a reconciliation of non-GAAP financial measures to the most directly comparable GAAP measures for those periods which include non-GAAP adjustments.

- (4) Earnings per common share is computed by dividing net income (less allocation of earnings and dividends to participating securities) by weighted-average common shares outstanding (basic or diluted as applicable) for each respective period or, in the case of adjusted earnings per common share, computed by dividing adjusted net income (less allocation of earnings and dividends to participating securities) by weighted-average common shares outstanding (basic or diluted as applicable) for each respective period.
- (5) During our fiscal fourth quarter of 2021 the Board of Directors approved a 3-for-2 stock split, effected in the form of a 50% stock dividend, paid on September 21, 2021. All share and per share information has been retroactively adjusted to reflect this stock split.
- (6) Book value per share is computed by dividing total equity attributable to Raymond James Financial, Inc. by the number of common shares outstanding at the end of each respective period or, in the case of tangible book value per share, computed by dividing tangible common equity by the number of common shares outstanding at the end of each respective period. Tangible common equity is defined as total equity attributable to Raymond James Financial, Inc. less goodwill and intangible assets, net of related deferred taxes.
- (7) These are non-GAAP financial measures. See the schedules on the previous pages for a reconciliation of non-GAAP financial measures to the most directly comparable GAAP measures and for more information on these measures. There were no non-GAAP adjustments to earnings for the three months ended March 31, 2021.
- (8) Estimated.
- (9) Return on equity is computed by dividing annualized net income by average equity for each respective period or, in the case of return on tangible common equity, computed by dividing annualized net income by average tangible common equity for each respective period. Adjusted return on equity is computed by dividing annualized adjusted net income by adjusted average equity for each respective period, or in the case of adjusted return on tangible common equity, computed by dividing annualized adjusted net income by adjusted average tangible common equity for each respective period.
- (10) Pre-tax margin is computed by dividing pre-tax income by net revenues for each respective period or, in the case of adjusted pre-tax margin, computed by dividing adjusted pre-tax income by net revenues for each respective period.
- (11) Total compensation ratio is computed by dividing compensation, commissions and benefits expense by net revenues for each respective period.
- (12) We earn fees from RJBDP, a multi-bank sweep program in which clients' cash deposits in their brokerage accounts are swept into interest-bearing deposit accounts at Raymond James Bank and various third-party banks. Fees earned by the Private Client Group on Raymond James Bank deposits are eliminated in consolidation.
- (13) Average yield on RJBDP third-party banks is computed by dividing annualized RJBDP fees third-party banks, which are net of the interest expense paid to clients by the third-party banks, by the average daily RJBDP balances at third-party banks.
- (14) The Other segment includes the results of our private equity investments, interest income on certain corporate cash balances, acquisition-related expenses, and certain corporate overhead costs of RJF, including the interest costs on our public debt and any losses on extinguishment of such debt.
- (15) Average equity is computed by adding the total equity attributable to Raymond James Financial, Inc. as of the date indicated to the prior quarter-end total, and dividing by two, or in the case of average tangible common equity, computed by adding tangible common equity as of the date indicated to the prior quarter-end total, and dividing by two. Adjusted average equity is computed by adjusting for the impact on average equity of the non-GAAP adjustments, as applicable for each respective period. Adjusted average tangible common equity of the non-GAAP adjustments, as applicable for each respective period.
