LINKED ACCOUNT SUMMARY

Clients with multiple Raymond James accounts can take advantage of statement linking that consolidates their information into a linked account summary. This service combines information about your various accounts into a comprehensive report. If you would like to take advantage of this offering and link your accounts, please contact your financial advisor.

1 Contact information appears in the upper-right corner of the summary to help you easily contact your advisor or client services.

2 The activity overview totals any deposits, income, withdrawals and expenses made during the statement period and calculates the difference from the previous statement so you can quickly see how and why your portfolio value changed.

3 The value over time section uses a simple chart to demonstrate the historical value of your accounts.

4 The asset allocation pie chart displays how your overall portfolio is allocated to various asset classes. This chart represents the asset allocation totals across all of your linked accounts.

5 The Linked Accounts section provides the description of your accounts, account numbers and page numbers. This section also allows comparison of prior statement value with current value, both for your individual accounts and for your portfolio overall. If there are important messages or inserts included with the statement, these will be listed here.

UNDERSTANDING YOUR STATEMENT

On this page, you’ll find information and disclosures related to your accounts and holdings.

Each account will have its own account summary page which precedes the portfolio and activity pages for each of your accounts. This page displays activities by category, reconciles beginning and ending account values, and includes a graphic view of the account’s value and allocation.

8 The account purpose section details your goals for the account, it is based on information you provided and can help determine if your investments are in line with your expectations. Since your objectives may change over time, be sure to consult your financial advisor if you believe modifications are necessary.

This section lists all relevant details of each security in your account, grouped by investment type. Categories include:

15 Cash & cash alternatives: cash or cash alternatives, including funds available in cash, CIP, money market funds or RJBDP.

16 Equities: options, stocks and any other class of equities in your account. Where applicable, unrealized gains or losses are shown.

17 The mutual funds section includes complete information about the funds in your portfolio, including open-end and closed-end. Costs, the current yield, estimated annual income, and the percentage and dollar amounts of any gains or losses are all provided.
